

OFFSHORE PLATFORMS ARE IN REMOTE AREAS

They Need Safeguard Protection Against Slips & Falls

SAFEGUARD Technology Inc.

provides aggressive Hi-Traction safety covers for use on steps, walkways, decks and ladder rungs on offshore oil and gas drilling and production platforms, ensuring slip prevention in even the most hazardous, wet, slippery, and oily environments.

SAFEGUARD® Covers Perform Wherever & Whenever Needed on Oil & Gas Platforms

Because oil & gas explorers and drillers encounter extreme operating conditions, SAFEGUARD developed, super coarse "Xtreme" Step Covers. These covers employ the industry's largest grit size to ensure anti-slip performance in the oil-, mud-, water-, and chemical covered areas on drilling platforms.

SAFEGUARD® Covers ...

- provide superior traction on steps, walkways, ladder rungs and helidecks; everywhere slip prevention is critical for the drilling team, crew members, executives and other personnel. In this brutal environment, traction can save a life!
- can supply photoluminescent "glow-in-the-dark" lighting for emergency and low light situations as a color option. Many standard and custom colors are offered, including two tone for added visual safety.
- are easily retrofitted and require only minimal occasional cleaning, providing many years of service.
- step covers have a return lip that wraps the leading edge, where most slips occur.
- deliver value-added service with embedded customer-specific descriptive markings such as symbols, logos, and safety words, ie. 'Use Handrail' and 'Danger Zone'.
- are offered in a full range of sizes, FRP composite and steel, and surface grades including Offshore (Extra Coarse) and Xtreme (Super Coarse), the largest grit surface in the world to combat the worst of conditions.

Since 1992, Safeguard Covers have been used throughout the world, from hot to cold temperature zones, by these and other leading companies:

- Diamond Offshore Drilling
- Brunei Shell Petroleum
- Saudi Aramco
- Maersk
- Dolphin Drilling
- Statoil
- Petronas
- ExxonMobil
- Rowan
- BP Oil
- Transocean
- Nabors Drilling
- Atwood Oceanics
- Helmerich & Payne
- ConocoPhillips
- Shell Oil
- PEMEX
- Murphy Oil
- Chevron
- Marathon Oil
- Ensco Drilling
- Noble Drilling
