

# LAND RIGS FOCUS ON DRILLING

*They Ask Safeguard to Focus on Anti-Slip Protection!*

## **SAFEGUARD Technology Inc.**

protects workers wherever slippery, dusty, wet, icy and oily conditions arise on land-based oil and gas drilling rigs. Hi-Traction safety covers are used on steps, walkways, decks, ladder rungs and other vital areas.

# SAFEGUARD® Covers Deliver Sure Traction From the Top to the Bottom of Your Land Rig

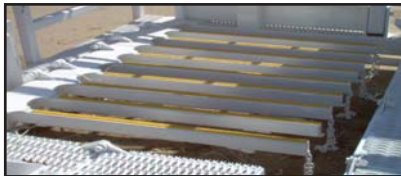

Oil & gas drillers encounter tough working conditions going head to head with the elements and the natural mud, oil-filled environment. The last thing they need are unsafe slippery conditions that lead to slips and falls.

Since 1992 Safeguard has been manufacturing hi-traction covers for steps, walkways, ladder rungs and all the working areas on land rigs throughout the world.

## SAFEGUARD® Covers ...

- are offered in FRP composite and steel, various grades, custom made and standard sizes.
- can be ordered in a range of standard safety colors, two-tone configurations, custom colors, and photoluminescent "glow-in-the-dark".
- work well on customer made walkway covers for land rig Monkey Board Fingers.
- when used over steps, provide a return that wraps around the leading edge, where most slips occur.
- deliver value-added service with embedded symbols, logos, and descriptive markings.
