

REFINERS & PROCESSORS KNOW...

Safe Environments Keep Profits Flowing!

SAFEGUARD Technology Inc.

presents anti-slip safety covers for steps, ladder rungs and walkways.

With Hi-Traction grit surfaces ideally suited for slippery, wet, oily and dusty conditions in refining and petrochemical processing.

SAFEGUARD® Covers Set the Standard for Anti-Slip Safety

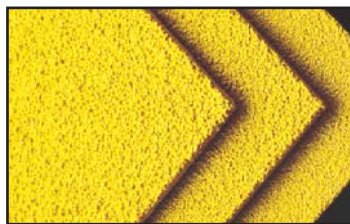

SAFEGUARD® Covers are...

- Prefabricated for easy on-site installation.
- Made of pultruded FRP composite fiberglass, stainless steel or galvanized steel, depending on application.
- Available in a range of colors including photoluminescent (glow-in-the-dark), sizes, and grit surfaces, including super coarse XTreme Grade for ultra-oily slippery environments.
- Cleans easily and provides excellent chemical, UV and corrosion resistance.
- Are renowned for providing superior traction. We cut our teeth in slip prevention providing safety step and walkway covers in harsh, wet and oily offshore drilling environments – SAFEGUARD® Covers exceed OSHA guidelines, especially when wet, oily, greasy or dusty! This is what sets SAFEGUARD® apart from short-term quick fixes such as tapes and coatings.
