Safeguard® Hi-Traction® and HiGlo-Traction® Step Covers offer a superior alternative to temporary paints and tapes.

Designed with a long-lasting, aggressive gritted surface, our products are proven to provide Anti-Slip protection in a variety of environments. The “——” shaped design wraps over the leading edge of your step to provide Anti-Slip protection where it is needed most.
Anti-Slip Hi-Traction®
STEP COVERS

Design
Most slips occur on the leading edge of the stair step, especially when the metal, wood or concrete surface becomes worn or rounded. Water, dust, or oil on the step further accentuates the problem. SAFEGUARD® Hi-Traction® Step Covers are designed to cover the leading edge, providing excellent traction, even in adverse conditions.

Coefficient of Friction
Safeguard Technology’s unique surface nearly doubles both the OSHA’s 0.5 and the ADA’s 0.6 guidelines for Coefficient of Friction values as confirmed in independent lab testing using the Mark II Model of the Brungraber slip testor. Even in wet or oily conditions, our Safety Covers greatly exceed these guidelines.

Six Sizes of Grit
Safeguard offers six sizes of grit. Super Coarse and Extra Coarse have become the industry standards for the Oil & Gas exploration industry. For less harsh environments such as crews quarters, shower and locker room facilities, fine grades are available.

Choose Your Colors
Select from a wide range of standard, premium, or custom colors. Please refer to our Standard and Premium Colors literature page.

Glow-in-the-Dark
Safeguard also offers HiGlo-Traction® Covers in photoluminescent which are visible for 12-20 hours after the light source is removed.

Two-Tone Colors Add Visibility
For added safety, our two-tone step Covers call attention to the edge of the step. A contrast between the step edge and the back of the tread below provides good definition and clear visibility. For step depths greater than 3 inches, we strongly recommend using our two-tone color configuration.

Base Materials
- 1/8”
- 18 gauge (1.2mm) G90 Galvanized Steel
- 18 gauge (1.2mm) #316 Stainless Steel

Sizing (Custom sizes available)
