

Heavy-Duty Aluminum Based Anti-Slip Covers

Anti-Slip Step Covers

Anti-Slip Pipe & Cable Covers

Anti-Slip Walkway Covers

- **Safeguard® Hi-Traction® Surface**
- **Marine Grade Aluminum**
- **Withstands Heavy Traffic**
- **Durable Base Material That Will Not Rust**
- **Alternative to Costly Stair Replacement**
- **Easily Installed with Screws or Adhesive**

Heavy-duty aluminum provides a thick, sturdy base material that remains rigid even under heavy foot traffic. Marine Grade aluminum resists rust to provide years of unwavering slip-proof footing.

With Safeguard's Hi-Traction® surface permanently bonded to the aluminum, these anti-slip covers exceed OSHA and ADA standards, even in adverse conditions.

Choose from six sizes of grit plus a wide variety of colors including glow-in-the-dark. You can even include logos or embedded messages and symbols for added safety.

A practical solution when underlying repairs may not be aesthetically pleasing, the durable, gritted surface is made to complement your décor and suit the safety needs of the area.
